Objective

Frontend Developer with 1.4 years of dedicated expertise in the Angular Framework. Adept at utilizing a diverse skill set, including Core Java, Angular, ReactJS, NodeJS, HTML, CSS, Bootstrap, Javascript, Typescript, jQuery, and Oracle SQL, to deliver high-quality web applications. Demonstrated proficiency in translating User Interface Design (UI) principles into visually appealing and intuitive user experiences.

Experience

Mar/2022 - Jun/2023

Associate System Analyst, **NSEIT Ltd**, Mumbai, India.

- Project Summary: I have successfully developed a Resource Monitor UI using the Angular framework.
- Front End Development: My responsibilities included designing and implementing web pages. This involved creating a user login page, a dashboard, a side navigation bar that is easy to navigate and a seamless logout interface
- Data Visualization: To showcase CPU Usage and Memory Usage trends over time I utilized the chart.js library to create real time graphs. These graphs receive data from the backend through web sockets.
- Real Time Data Integration: I worked closely with the development team to establish a mechanism, for data flow between the frontend and backend.
- Log Window: As part of my work I developed a log window that displays Fatal and Warning logs originating from systems. The logs include information such as System Name, User ID, Process Name, Timestamps and Fatal Error messages.
- User Interface Enhancement: Continuously improving user experience was one of my priorities. This involved making sure that the user interface is responsive across devices and browsers while focusing on creating an efficient experience for users.
- Code Quality: Maintaining high quality code was crucial throughout the development process I followed practices in development and conducted code reviews in collaboration, with my team to ensure code quality standards were met.

Education

Aug/2018 - Sep/2021
Bachelor of Engineering, Computer Science And Engineering
BLDEA's Dr. P. G. Halakatti College of Engineering, Bijapur

Jun/2013 - May/2018
Diploma, Computer Science And Engineering
BLDEA's POLYTECHNIC, Bijapur

Skills

- Java
- Angular
- React.JS
- HTML
- CSS
- Bootstrap
- JavaScript
- TypeScript
- Node.JS
- Oracle SQL

Tools

- Eclipse
- Visual Studio Code
- Figma
- Subversion (SVN)

Academic Projects

- Mini Project On "APARTMENT VISITORS MANAGEMENT SYSTEM"
- Developed a Major "PROJECT PLANT LEAVES DISEASES DETECTION"

Certifications

- Angular(Basic) Certification, HackerRank
- NPTEL Online Certification: Programming in Java
- Java Full Stack in Jspiders Institute, Bangalore

Internship

- Web Development in Wilkin Software Technologies, Bangalore.
- Angular Development in I learn future, Bangalore.
